

PRODUCT SHEET: PHS-S

Acoustic Suspension Hangers

PHS-S Elastomer Acoustic Suspension Hangers have been designed to support suspended ceiling and wall systems as well as to decouple equipment or ductwork.

SYSTEM FEATURES:

- 🔊 Cost effective
- 🔊 Quick and easy to install
- 🔊 Standard hangers are:
 - PHS-S-150 10-20 kg per hanger
 - PHS-S-350 20-45 kg per hanger
 - PHS-S-600 40-90 kg per hanger
- 🔊 Natural frequency between 12 and 18Hz
- 🔊 Can be used to support most suspended ceiling systems
- 🔊 Variable void depths are achievable (PHS-S hanger depth is 50mm)
- 🔊 Steel elements are Zinc plated
- 🔊 For optimum results a resilient perimeter strip should be used to provide lateral isolation between the suspended ceiling and adjacent walls. A wide range of roll sizes are available.

REQUIREMENTS

To specify which PHS-S hangers you require, our engineers will need the following information:

- 🔊 The weight and construction of the supported ceiling
- 🔊 The weight of any elements supported off the suspended ceiling or directly off a hanger
- 🔊 The required void between the supporting soffit and the suspended ceiling.
